

OldCityParkFeatures

Construct a Splash Park:

The splash pad should serve as an attraction to children, but can also be designed as a piece of public art.

Develop multi-use lawn area:

Area will be used for festivals, events and unstructured play.

Playground area updates:

Upgrades will include new play equipment and safety surfacing.

Construct perimeter walk:

A perimeter walk with pedestrian bridges will be added to connect the downtown to the park.

New picnic shelter and restrooms:

A new picnic shelter with public restrooms will be installed near the location of the current shelter, adjacent to the playground. The historic stone shelter will be preserved.

Install overlook:

A new overlook shelter will be constructed at the south side of the park, across from the future Town Square. It will be built as a picnic shelter that can also serve as a stage for music and events downtown.

Construct Creek enhancements:

Pleasant Creek will be reconstructed back to a natural channel. Rocks, trees and grasses will be located along its banks to control erosion and serve as a play feature. Paths will wind through the lawn areas surrounding the creek.

Maintain sledding hill:

The existing sledding hill within the park will be kept in place.
