# HOW TO VOTE: USING THE COUNTY'S ELECTRONIC VOTING MACHINES
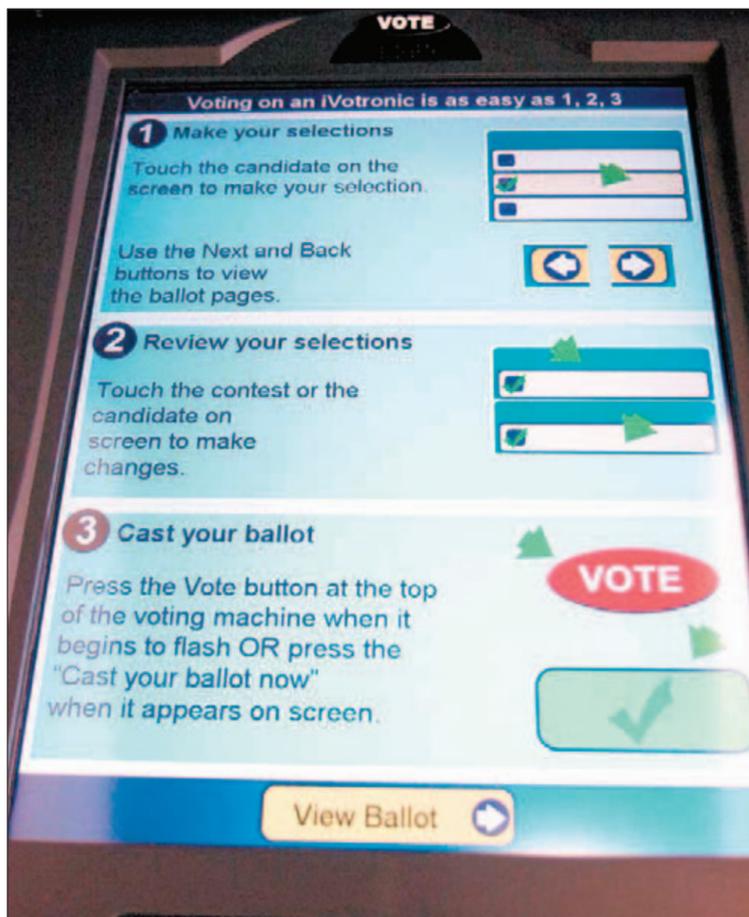

1 The terminals. The touchscreen voting terminals are mounted on a stand with side panels for privacy. When you get to the polls, show your photo identification and sign the poll book. Poll workers give you a card with instructions on how to use the terminal. Instructions also are on the voting machine screen.

2 Personalized electronic ballot. Poll workers take the authorization card and activate your ballot. Touch "View Ballot" to see the ballot. Instructions appear on the screen. Poll workers remove the activator and allow you to cast your ballot in private.
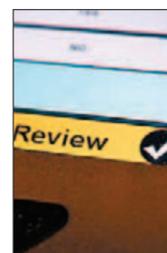

3 Electronic ballot. You will see a 15-inch electronic display of the ballot. Use your finger or rubber stylus to touch the name of the candidate you are voting for. If you choose to vote straight party ticket, you will still need to mark your votes in school board and public referendum questions, since those are non-partisan.
