Press Release

Center for Orthopaedic Surgery & Sports Medicine, P.C.

Last Thursday, the Center for Orthopaedic Surgery & Sports Medicine, P.C. d/b/a MyOrthoTeam.com learned that an incident occurred at the Center Grove Bantam Football fields involving Dr. Douglas Flory, one of our physicians. The allegation was that while coaching a bantam team, Dr. Flory kicked a player. Our own investigation unfortunately revealed the allegation to be true. MyOrthoTeam.com does not condone such conduct. We, at MyOrthoTeam.com, are passionate about everything we do -- whether it is providing quality care to our patients or coaching a little league team. However, as professionals in the community, we must not let our passions or emotions get in the way in which we chose to conduct ourselves especially in front of our impressionable youth. While Dr. Flory's conduct may not have been within the scope of practicing medicine, MyOrthoTeam.com is a sponsor of the league and such public conduct negatively affects the reputation and good will of MyOrthoTeam.com. When discussing this with him, Dr. Flory resigned. MyOrthoTeam.com accepted his resignation. Patient care will not be disrupted. MyOrthoTeam.com remains committed to supporting Center Grove athletic programs.

No further statements will be forthcoming.
