Indianapolis grain

Estimated grain prices Thursday at Indianapolis-area elevators: Corn: cash \$2.04, March \$2.05. Soybeans: cash \$5.79, March \$5.79. Wheat: \$3.54.

Eastern Cornbelt direct hogs

Eastern Cornbelt Lean Value Direct Hogs report for Thursday:
Trend: Barrows and gilts were 93 cents higher compared with previous day's close.

Base-market carcass basis plant-delivered: 0.9 to 1.1 square inches of back fat, \$51.00-\$58.00; weighted average \$54.91.

Net prices, including premiums: 0.9-1.0, \$51.00-\$59.50; 1.0-1.1, \$51.00-\$58.00; 1.1-1.2, \$51.00-\$55.50.
Daily movement estimate: 5,602.

Wall Street

NEW YORK — Wall Street's momentum sagged Thursday, leaving the major indexes mixed after investors' enthusiasm over a six-year low in unemployment claims and strong corporate earnings waned in the face of longer-term economic worries.

With lingering questions remaining about the health of the economy, interest rates, oil prices and geopolitics, investors took profits in late trading, focusing on the energy and technology sectors that led the most recent rallies.

"Most companies have already reported their earnings, and I think we're getting to a quiet period where it can be tough to keep anything positive going," said Hans Olsen, managing director and chief investment officer at Bingham Legg Advisers. "There's still a lot out there to deal with."

While weekly first-time jobless claims rose slightly, Wall Street was initially encouraged after the Labor Department said the four-week moving average of claims, a strong indicator of the labor market's health, fell to its lowest level since April 2000. Positive earnings reports from Best Buy Co. Inc. and Aetna Inc. also cheered would-be buyers for much of the session.

The Dow Jones industrial average rose 24.73, or 0.23 percent, to 10,883.35 after gaining 108.86 points Wednesday.

Broader stock indicators were lower, however. The Standard & Poor's 500 index fell 1.87, or 0.15 percent, to 1,263.78, and the tech-focused Nasdaq composite index dropped 11.11, or 0.49 percent, to 2,255.87.

Bonds reversed direction from the previous session and climbed higher as the first auction of 30-year Treasury bonds since 2001 was generally well received. The yield on the benchmark 10-year Treasury note fell to 4.54 percent from 4.59 percent late Wednesday. The dollar was mixed against most major currencies, while gold prices edged lower.

First tomb since King Tut's found in Valley of the Kings

By LEE KEATH

THE ASSOCIATED PRESS

CAIRO, Egypt

The first tomb to be discovered in the Valley of the Kings since King Tut's in 1922 contains five sarcophagi with mummies, breaking the nearly centurylong belief that there's nothing more to find in the valley where some of Egypt's greatest pharaohs were buried.

The tomb's spare appearance suggests it was not dug for a pharaoh, said U.S. archaeologist Kent Weeks, who was not involved in the University of Memphis team's find but has seen photographs of the site.

"It could be the tomb of a king's wife or son, or of a priest or court official," he said.

So far, authorities haven't had a close enough look to know who is in the tomb. Workers have been clearing rubble to allow archaeologists to examine it.

Egypt's antiquities authority has said only that the single-chamber tomb contains five wooden sarcophagi, in human shapes with colored funerary masks, surrounded by 20 jars with their pharaonic seals intact, and that the sarcophagi contain mummies, likely from the 18th Dynasty, about 3,500 to 3,300 years ago.

Further details were expected Friday, when antiquities chief Zahi Hawass was to unveil the tomb.

Officials were tightlipped Thursday, a day after announcing the find. Calls to Hawass and

An archaeologist works in a shaft leading to a new tomb discovered in Egypt's Valley of the Kings on Wednesday.

other officials were not answered. American archaeologist Otto Schaden, who headed the team that uncovered the site, declined to answer any questions when contacted.

Photos released by the Supreme Council of Antiquities showed the interior of the tomb, the bare stone walls undecorated, with at least five sarcophagi of blackened wood amid white jars, some apparently broken. What appeared to be a sixth sarcophagus was set on top of two of the other coffins, though the council's statement mentioned only five.

The tomb may provide less drama than the famed opening of King Tut's tomb in 1922 by British archaeologist Howard Carter, a discovery which revealed a treasure trove of gold artifacts along

with the boy-king's mummy.

But it raises hopes that even more burial sites will be found in the Valley of the Kings, which experts believed held only 62 tombs, labeled KV1-KV62 by archaeologists.

"I wouldn't be surprised if we discover more tombs in the next 10 years. For a long time, people thought there was nothing left to find and excavations seemed unlikely to produce much. So instead, they concentrated on recording what was already there," Weeks said.

Weeks made the last major discovery in the valley. In 1995, he opened a previously known tomb, KV5, and found it was far larger than expected: more than 120 chambers, which he determined were meant for sons of the pharaoh Ramses II.

Skills

(CONTINUED FROM PAGE ONE)

Muhney likes fencing so much that he asked for a saber, mask and protective jacket for Christmas.

Most students are involved in only one enrichment activity, although some have tried different groups to see which they like the best.

In the debate club, some of the parent volunteers are attorneys and help the students organize the debate, Burnett said. Another parent with computer and Web experience teaches them how to use the Internet for research purposes, she said.

Burnett's seventh-grade daughter, 13-year-old Jenna, tried out the construction activity and investment clubs this year, she said.

During the construction club, which meets for an hour after school on Mondays, Burnett is able to learn what goes into building projects, such as a new school.

The investment club meets every Friday, and students are given a play amount of \$10,000, the student said.

Park

board and conduct public meetings for input. Suggestions could include trails, shelters or a new pool.

In the end, park board members have final say about how to use the property, unless projects require a bond sale that would need approval from the city council.

Park board members chose

"Kids are scoring higher on standardized testing, but their needs aren't always met. We wanted to find out what would light these kids up in the classroom and bring more enrichment to their lives."

Cassie Burnett
Parent who organized the enrichment program at Center Grove Middle School Central

About 19 students pick their stocks based on what they like and then monitor their shares and the market's activity, Jenna Burnett said. Each week, they check their stocks and learn why the stock market goes up and down, and what that means for their investments.

"You get to make good choices and learn about issues that are bigger than schoolwork," she said.

Burnett has picked some of her favorite companies: Hershey's chocolate, eBay and Panera Bread. She still has two stocks to choose.

"Panera Bread because I love the food there," she said. "And chocolate, c'mon. You have to love it."

Schmidt Associates because of their work on projects such as Carmel West Park, River Heritage Park in Carmel and Carmel's greenway trails.

The parks department originally intended to hire Lehman & Lehman, which has worked with the city before; but the consultant's location in South Bend posed a problem, Butler said.

The board wanted someone close by and familiar with the community, she said.

Consultants are asking to be paid \$11,000, but details of the contract are still being worked out.

Thefts

(CONTINUED FROM PAGE ONE)

"Criminals know whether security is around," he said.

The school district was lucky, but other businesses across the county weren't so fortunate.

Thieves took more than \$200,000 worth of construction equipment, tools and materials from building sites in Greenwood last year. That amount is nearly double the value of what was stolen in 2004, Greenwood Police Chief Joe Pitcher said.

In unincorporated parts of the county, sheriff's deputies investigated 17 reports of missing lumber

and building supplies from where new homes and businesses were under construction in 2005, seven more than in 2004.

The equipment, tools and supplies left out when workers go home is like a stack of cash sitting outside, Pitcher said.

Police now recommend that someone stay at a site all night, ready to shoo would-be thieves off the property.

Two Greenwood businesses took that advice and
