Franklin Meadows proudly presents another one of our success stories.

Originally from Brown County, Indiana, Patricia "Patty" Emberton, came to us from Morgantown, Indiana, three months ago. She had fractured part of her back in her home. Patty has regained her strength and will be on her way home soon. Even though she is done with her therapy, Patty still takes time each day and goes the extra mile by doing more therapy on her own. She wants to get back to canning vegetables from her garden and making quilts (which she does by hand and it takes a whole year to make one). She has had an overwhelming amount of support from her family and friends. Patty really appreciates her sons Greg and Bill for helping her out physically and mentally. She also has many relatives that work here at our center that have helped out with her recovery. All of us here at Franklin Meadows wish her well. "All of the staff here has been very helpful and friendly. They are like family, in fact some of them really are."

-Patty Emberton.
