STUFF

Join the MACTac Team!
 We are looking for individuals who want to be part of a winning team that pursues excellence, drives six sigma quality, desires to grow individually and as part of a team, works and promotes safety, embraces and encourages change, and desires to be part of a work environment that fosters trust, personal responsibility and accountability, and executes goals and objectives.
 MACTac is a leader in the pressure sensitive industry. The Columbus facility is a growing organization and is facing exciting challenges in its development.
Senior Electrical Engineer
 This person will be responsible for overseeing various projects in the plant aimed at maintaining and improving Safety, Quality, Service, and Cost. Individual will focus in areas of on-going technical support to the Operating and Maintenance teams, application of engineering principles and industry best practices. Requirements include a 4 yr degree in Electrical Engineering, 10 yrs experience preferred with a minimum of 5 yrs experience as a leader overseeing multiple engineers. Candidates must possess solid project management skills and be a team player in a collaborative team environment. Strengths must include electrical drives (AC digital drives), controls, and communications. Strengths should also include PLC systems and programming, and plant electrical power systems. Candidates must also be knowledgeable of National Electric Codes, planned maintenance, and troubleshooting methods and practices.
 Please submit cover letter, resume and salary requirements to:
